

# SUMMER SESSION 2008 INFORMATION FOR STUDENTS NOT CURRENTLY ENROLLED AT UH

Please read the following prerequisite and registration information carefully.

## TO ENROLL:

**CHEM 151/151L and CHEM 161/161L** are entry level classes and you should have no problems registering with a valid UH ID. **All other courses** have prerequisites as listed below. Please note that the prerequisites listed use UH course numbers and the computer does not recognize the course numbers from your home institution that may be equivalent to the UH course listed. You will therefore receive a "Prerequisite error" message when you attempt to register. In order to receive "Departmental approval", email [chemsumr@hawaii.edu](mailto:chemsumr@hawaii.edu) with the following information:

1. your full name,
2. your UH student ID number,
3. the course(s) you wish to enroll in during Summer Session I and II, and
4. either (preferred) a URL to the course websites of the introductory chemistry courses you have taken and completed with a passing grade, or, alternatively, a pdf file with a course syllabus as an attachment to your email. (*Note: this syllabus must speak to the content of the course and not the organizational issues*).

PLEASE USE "**Prerequisite evaluation**" AS YOUR SUBJECT. MESSAGES WITH OTHER HEADERS MAY BE FILTERED OUT BY THE SPAM FILTER.

Within three business days of submission of complete information, the department will assess whether these courses fulfill our prerequisites and will unblock your registration for the courses you wish to enroll in. You will be notified by email.

**Please do not call or submit information by fax. This prerequisite check will be performed entirely electronically.**

## PREREQUISITE INFORMATION:

## **GENERAL CHEMISTRY**

### **CHEM 151**

This course does not have any prerequisites and you should be able to register online with a UH Student ID number.

### **CHEM 151L**

You must have either passed CHEM 151 before or be enrolled in CHEM 151 during Summer Session in order to enroll.

### **CHEM 161**

Enrollment in CHEM 161 has no prerequisite. You should be able to enroll with a valid UH student ID.

### **CHEM 161L**

You must have either passed CHEM 161 before or be enrolled in CHEM 161 during Summer Session in order to enroll.

### **CHEM 162**

Enrollment in CHEM 162 has a prerequisite of a passing grade in CHEM 161 (or its equivalent). CHEM 151 does not fulfill this prerequisite.

### **CHEM 162L**

You must either be enrolled in CHEM 162 concurrently or have passed CHEM 162 before.

## **ORGANIC CHEMISTRY**

### **CHEM 272**

This course has as a prerequisite a full year course of General Chemistry.

### **CHEM 272L**

You must have either passed CHEM 272 before Summer Session I starts or you must be enrolled in CHEM 272 during Summer Session I in order to be allowed to enroll.

### **CHEM 273**

This course has as a prerequisite successful completion of CHEM 272 (or its equivalent).

## **CHEM 273L**

Enrollment in this laboratory requires that you have completed successfully CHEM 272L and that you have either passed CHEM 273 or that you are enrolled in CHEM 273 during this summer session.
