

SUMMER SESSION 2008 INFORMATION FOR CURRENT UH STUDENTS

Please read the following prerequisite and registration information carefully.

UH students from a campus other than Manoa may require a course approval. **Email** the department at chemsumr@hawaii.edu with your name, UH ID number, the campus that you took the prerequisite course and the course that you would like to enroll in. **Please do not call or fax.**

Note to all UH students: As of the Fall 07 semester, a grade of "C" will be required to go from CHEM 161 to CHEM 162, from CHEM 162 to CHEM 272 and from CHEM 272 to CHEM 273.

GENERAL CHEMISTRY

CHEM 151

This course does not have any prerequisites and you should be able to register online with a UH Student ID number.

CHEM 151L

You must have either passed CHEM 151 before or be enrolled in CHEM 151 during Summer Session in order to enroll.

CHEM 161

Enrollment in CHEM 161 has as a prerequisite a passing score in a placement exam. For times and locations of the exam follow this [link](#)

CHEM 161L

You must have either passed CHEM 161 before or be enrolled in CHEM 161 during Summer Session in order to enroll.

CHEM 162

Enrollment in CHEM 162 has a prerequisite of a passing grade in CHEM 161 (or its equivalent). CHEM 151 does not fulfill this prerequisite.

CHEM 162L

You must either be enrolled in CHEM 162 concurrently or have passed CHEM 162 before.

ORGANIC CHEMISTRY

CHEM 272

This course has a prerequisite a full year course of General Chemistry (lecture and lab).

CHEM 272L

You must have either passed CHEM 272 before Summer Session I starts or you must be enrolled in CHEM 272 during Summer Session I in order to be allowed to enroll.

CHEM 273

This course has as a prerequisite successful completion of CHEM 272 (or its equivalent).

CHEM 273L

Enrollment in this laboratory requires that you have completed successfully CHEM 272L and that you have either passed CHEM 273 or that you are enrolled in CHEM 273 during this summer session.
